

DE-construct 183 Richmond Road RICHMOND SA 5033 ABN: 75 008 145 435	Quality Assurance – Policy Statement	01.01.03	
		Revision:	9
		Date approved:	08/04/2022

De-Construct was established in 2002 and specialises in asbestos abatement (Class A, friable and Class B, non-friable), demolition (full and in-part) and civil works.

Mission: Our mission is to provide high quality, cost-effective services, focused on ensuring the best possible outcome for our clients based on our ability to meet our quality objectives.

As De-Construct recognises that its customers expect services to conform to specified requirements, De-Construct undertakes to manage and conduct its business in a manner that will meet this expectation by developing and maintaining good relationships with clients, suppliers and subcontractors.

The manner in which this shall be achieved is through planning, control and verification of all aspects of the work as defined in the quality management system and as expressed in supporting management plans and or procedures as applicable to the contract of work.

To achieve its mission, De-Construct will establish and maintain an effective and efficient quality management system which:

- Established quality management system objectives.
- Commits to satisfy applicable requirements.
- Ensures all subcontractors, suppliers and employees of de-construct whose performance may affect quality operate within the control of de-construct quality management system.
- Ensures all employees of de-construct will comply with this policy and all the requirements that are derived from this policy.
- Ensures a commitment to continuous improvement by measuring the effectiveness of its quality management system.

De-Construct quality management system has been developed and is maintained in accordance with the requirements of the International Standard AS/NZS ISO 9001 – “Quality Management Systems - Requirements”.

Supporting documentation which define and describe business quality processes are accessible by all employees and distributed to relevant identified stakeholders. These documents are readily available upon request.
